

Key benefits of NGS Panel Genomic

HIGHEST DIAGNOSTIC ACCURACY & UTILITY

- > Flexible panel composition
- > Revisit genes as new information becomes available
- > Unparalleled information content (HiSeqX technology)
- > Increased coverage of genic regions
- > Reduced PCR Bias to minimize artefacts
- > High accuracy detection of CNVs and complex gene rearrangements

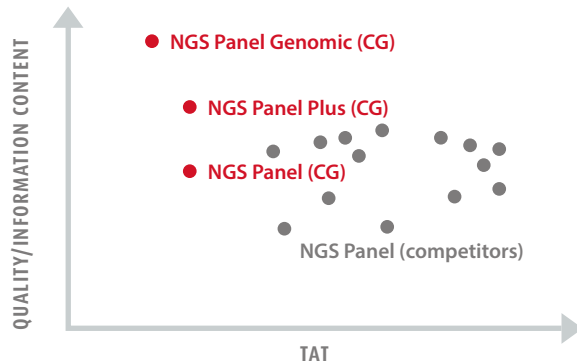

FASTEST TIME TO RESULTS

- > No time lost with step-wise analysis
- > Powered by whole genome sequencing, all information related to the phenotype available in < 20 days
- > We keep you updated with any new gene information

FASTEST TIME TO RESULTS

- > Cost effective for out of pocket payment and also for healthcare structures
